

ULTRA LIGHTWEIGHT INFLATABLE TUBULAR STRUCTURE AND EASY TO ASSEMBLE

Brand: Inflate A Tank USA

MILITARY TYPE TENT MULTIPURPOSE FREE SPACE

APPLICATIONS

Civil Protection, Military, Firefighters, Police, Gendarmerie among others.

STRUCTURE

Inflatable tubular structure made of airtight polyester fabric (1100 g/m²) coated on both sides with PVC.

This tent does not require any rigid or aluminum elements.

FABRIC TYPES

The tent cover attaches over the inflatable frame using Velcro, locking pins and hook closures.

Ground anchoring system is included. Anti-wind fixation.

It is made of polyester fabric (700 g/m²) coated with PVC on both sides.

The fabric is fire retardant, waterproof and resistant to temperature ranges from - 20 celsius to 50 celsius.

INFLATABLE TUBULAR STRUCTURE

Brand: Inflate A Tank USA

Inner lining layer

Light windbreaker type fabric, usually white.
This connects to Belko's interior steam.
